

Section 1: Product And Company Identification

COMPANY: J/B INDUSTRIES INC.
 LOCATION: 601 N. Farnsworth Ave.
 Aurora, IL 60507
Emergency Telephone Number:
 630/851-9444

PRODUCT NAME:
 Vacuum Pump Oil

PRODUCT GRADES:

PRODUCT CODE:

DATE ISSUED:
 December 28, 1992

DATE REVISED:
 September 18, 2006

Section 2: Composition/ Information On Ingredients

CAS NAME:
 Distillates, hydrotreated heavy paraffinic

CAS NUMBER:
 64742-54-7

AMOUNT:
 100% weight

This product is not approved for direct food use [CFR 178.3620 (a) & (b)]

Section 3: Hazards Identification

EMERGENCY OVERVIEW

Clear colorless to pale yellow liquid.

IMMEDIATE HEALTH EFFECTS

EYE:

Not expected to cause prolonged or significant eye irritation.

SKIN:

Contact with the skin is not expected to cause prolonged or significant irritation. Not expected to be harmful to internal organs if absorbed through the skin. Contact with the skin is not expected to cause an allergic skin response.

INGESTION:

Not expected to be harmful if swallowed.

INHALATION:

Not expected to be harmful if inhaled. Contains a petroleum-based mineral oil. May cause respiratory irritation or other pulmonary effects following prolonged or repeated inhalation of oil mist at airborne levels above the recommended mineral oil mist exposure limit. Symptoms of respiratory irritation may include coughing and difficulty breathing.

Section 4: First Aid Measures

EYE:

No specific first aid measures are required because this material is not expected to cause eye irritation. As a precaution, remove contact lenses, if worn, and flush eyes with water.

SKIN:

No specific first aid measures are required because this material is not expected to be harmful if it contacts the skin. As a precaution, remove clothing and shoes if contaminated. To remove the material from skin, use soap and water. Discard contaminated clothing and shoes or thoroughly clean before reuse.

INGESTION:

No specific first aid measures are required because this material is not expected to be harmful if swallowed. Do not induce vomiting. As a precaution, give the person a glass of water or milk to drink and get medical advice. Never give anything by mouth to an unconscious person.

INHALATION:

No specific first aid measures are required because this material is not expected to be harmful if inhaled. If exposed to excessive levels of material in the air, move the exposed person to fresh air. Get medical attention if coughing or respiratory discomfort occurs.

Section 5: Fire Fighting Measures

FIRE CLASSIFICATION:

OSHA Classification (29 CFR 1910.1200): Not classified by OSHA as flammable or combustible.

NFPA RATINGS:

HEALTH	FLAMMABILITY	REACTIVITY
0	1	0

FLAMMABLE PROPERTIES:

FLASH POINT:

Cleveland Open Cup 378°F (190°C) (Min)

AUTOIGNITION:

No data available

FLAMMABLE (EXPLOSIVE) LIMITS (% by volume in air):

Lower N/A Upper N/A

EXTINGUISHING MEDIA:

Use water fog, foam, dry chemical or carbon dioxide (CO₂) to extinguish flames.

PROTECTION OF FIRE FIGHTERS:

Fire Fighting Instructions:

This material will burn although it is not easily ignited. For fires involving this

material, do not enter any enclosed or confined fire space without proper protective equipment, including self-contained breathing apparatus.

Combustion Products:

Highly dependent on combustion conditions. A complex mixture of airborne solids, liquids, and gases including carbon monoxide, carbon dioxide, and unidentified organic compounds will be evolved when this material undergoes combustion.

Section 6. Accidental Release Measures

PROTECTIVE MEASURES:

Eliminate all sources of ignition in vicinity of spilled material.

SPILL MANAGEMENT:

Stop the source of the release if you can do it without risk. Contain release to prevent further contamination of soil, surface water or groundwater. Clean up spill as soon as possible, observing precautions in Exposure Controls/ Personal Protection. Use appropriate techniques such as applying non-combustible absorbent materials or pumping. Where feasible and appropriate, remove contaminated soil. Place contaminated materials in disposable containers and dispose of in a manner consistent with applicable regulations.

REPORTING:

Report spills to local authorities and/or the U.S. Coast Guard's National Response Center at (800) 424-8802 as appropriate or required.

Section 7. Handling and Storage

GENERAL HANDLING INFORMATION:

Avoid contaminating soil or releasing this material into sewage and drainage systems and bodies of water.

STATIC HAZARD:

Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding may be necessary but may not, by themselves, be sufficient. Review all operations which have the potential of generating an accumulation of electrostatic charge and/or a flammable atmosphere (including tank and container filling, splash filling, tank cleaning, sampling, gauging, switch loading, filtering, mixing, agitation, and vacuum truck operations) and use appropriate mitigating procedures. For more information, refer to OSHA

Standard 29 CFR 1910.106, 'Flammable and Combustible Liquids', National Fire Protection Association (NFPA 77, 'Recommended Practice on Static Electricity; and /or the American Petroleum Institute (API) Recommended Practice 2003, 'Protection Against Ignitions Arising Out of Static, Lightning and Stray Currents'.

CONTAINER WARNING:

Container is not designed to contain pressure. Do not use pressure to empty container or it may rupture with explosive force. Empty containers retain product residue (solid, liquid, and/or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly.

Section 8. Exposure Controls/ Personal Protection

GENERAL CONSIDERATIONS:

Consider the potential hazards of this material (see Section 3), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

ENGINEERING CONTROLS:

Use in a well-ventilated area.

PERSONAL PROTECTIVE EQUIPMENT:

EYE/FACE PROTECTION:

No special eye protection is normally required. Where splashing is possible, wear safety glasses with side shields as a good safety practice.

SKIN PROTECTION:

No special protective clothing is normally required. Where splashing is possible, select protective clothing depending on operations conducted, physical requirements and other substances. Suggested materials for protective gloves include: Nitrile Rubber, Silver Shield, Viton.

RESPIRATORY PROTECTION:

No respiratory protection is normally required.

If user operations generate an oil mist, determine if airborne concentrations are below the OSHA Permissible Exposure Limit (PEL) of 5 mg/m³ for mineral oil mist. If not, wear a NIOSH approved respirator that provides adequate protection from the measured concentrations of this material. For air-purifying respirators use a particulate cartridge.

Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Section 9: Physical And Chemical Properties

APPEARANCE AND ODOR:

Clear colorless to pale yellow liquid.

PH:

Not Available

VAPOR PRESSURE:

<0.01 mmHg @ 100°F

VAPOR DENSITY (Air =1):

>1

BOILING POINT:

>600°F (>315° C)

SOLUBILITY:

Soluble in hydrocarbons, insoluble in water

FREEZING POINT

NA

MELTING POINT

NA

SPECIFIC GRAVITY:

0.85-0.87 @ 15.6 °C/15.6°C

VOLATILE ORGANIC COMPOUNDS (VOC):

2.9% weight (Approximate)

VISCOSITY:

18.7 cST - 105 cST @40°C

Section 10. Stability And Reactivity

CHEMICAL STABILITY:

This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

INCOMPATIBILITY WITH OTHER MATERIALS:

May react with strong oxidizing agents, such as chlorates, nitrates, peroxides, etc.

HAZARDOUS DECOMPOSITION PRODUCTS:

None known (None expected)

HAZARDOUS POLYMERIZATION:

Hazardous polymerization will not occur.

Section 11. Toxicological Information

IMMEDIATE HEALTH EFFECTS

EYE IRRITATION:

The mean 24-hour Draize eye irritation score in rabbits is 4.0/110.

SKIN IRRITATION:

For a 24-hour exposure, the Primary Irritation Score (PIS) in rabbits is: 0.2/8.0.

SKIN SENSITIZATION:

This material did not cause skin sensitization reactions in a Buehler guinea pig test.

ACUTE DERMAL TOXICITY:

The 24 hour(s) LD50 in the rabbit is >5g/kg.

ACUTE ORAL TOXICITY:

The LD50 in the rat is >5 g/kg.

ACUTE INHALATION TOXICITY:

The acute inhalation toxicity hazard is based on evaluation of data for similar materials or product components.

GENETIC TOXICITY:

This product gave negative results in the following mutagenicity assays: Microbial/Microsome Reverse Mutation Assay.

ADDITIONAL TOXICOLOGY INFORMATION:

This product contains petroleum base oils which may be refined by various processes including severe solvent extraction, severe hydrocracking, or severe hydrotreating. None of the oils requires a cancer warning under the OSHA Hazard Communication Standard (29 CFR 1910.1200). These oils have not been listed in the National Toxicology Program (NTP) Annual Report nor have they been classified by the International Agency for Research on Cancer (IARC) as; carcinogenic to humans (Group 1), probably carcinogenic to humans (Group 2A), or possibly carcinogenic to humans (Group 2B).

Section 12. Ecological Information:

EXOTOXICITY

Ten 96 hour(s) LC50 for rainbow trout (*Oncorhynchus mykiss*) is >1000 mg/l.

ENVIRONMENTAL FATE

READY BIODEGRADABILITY:

This material is not expected to be readily biodegradable.

Section 13. Disposal Considerations

Oil collection services are available for used oil recycling or disposal. Place contaminated materials in containers and dispose of in a manner consistent

with applicable regulations. Contact your sales representative or local environmental or health authorities for approved disposal or recycling methods.

Section 14. Transportation Information

The description shown may not apply to all shipping situations. Consult 49CFR, or appropriate Dangerous Goods Regulations, for additional description requirements (e.g., technical name) and mode-specific or quantity-specific shipping requirements.

DOT SHIPPING NAME:

Not regulated as a hazardous material for transportation under 49 CFR

DOT HAZARD CLASS:

Not Applicable

DOT IDENTIFICATION NUMBER:

Not Applicable

DOT PACKING GROUP:

Not Applicable

CHEMICAL INVENTORIES:

AUSTRALIA: All the components of this material are listed on the Australian Inventory of Chemical Substances (AICS).

KOREA: All the components of this product are on the Existing Chemicals List (ECL) in Korea.

PHILIPPINES: All the components of this product are listed on the Philippine Inventory of Chemicals and Chemical Substances (PICCS).

CANADA: All the components of this material are on the Canadian Domestic Substances List (DSL).

EUROPEAN UNION: All the components of this material are in compliance with the EU Seventh Amendment Directive 92/32/EEC.

UNITED STATES: All of the components of this material are on the Toxic Substances Control Act (TSCA) Chemical Inventory.

NEW JERSEY RTK CLASSIFICATION: Under the New Jersey Right-to-Know Act L. 1983 Chapter 315 N.J.S.A.34:5A-1 et. seq., the product is to be identified as follows: PETROLEUM OIL

WHMIS CLASSIFICATION:

This product is not considered a controlled product according to the criteria of the Canadian Controlled Products Regulations.

Section 16. Other Information
