

Safety Data Sheet

Issue Date: 20-Oct-2012

Revision Date: 17-Nov-2014

Version 1

1. IDENTIFICATION

Product Identifier

Product Name Coastal Dexron® VI Automatic Transmission Fluid

Other means of identification

SDS # WUI-018

Synonyms Coastal Dexron® VI Automatic Transmission Fluid.

Recommended use of the chemical and restrictions on use

Recommended Use Automatic Transmission Fluid for use in General Motors vehicles, requiring the DEXRON VI specification.

Details of the supplier of the safety data sheet

Supplier Address

Warren Oil Company
915 E. Jefferson Ave.
West Memphis, AR 72301

Emergency Telephone Number

Company Phone Number 1-870-400-3020
Emergency Telephone (24 hr) INFOTRAC 1-352-323-3500 (International)
1-800-535-5053 (North America)

2. HAZARDS IDENTIFICATION

Appearance Viscous liquid

Color Red

Odor Mild petroleum oil like

GHS Classification

Not a hazardous substance or mixture.

GHS Label Element

Not a hazardous substance or mixture.

Potential Health Effects

Primary Routes of Entry: Eye Contact; Ingestion; Inhalation and Skin Contact

Aggravated Medical Condition

None known.

Carcinogenicity:

IARC – No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH - No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

OSHA – No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

NTP – No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture: Mixture

Hazardous components

Chemical Name	CAS No	Concentration (%)
Lubricating oils (petroleum), C15-30, hydrotreated neutral oil-based	72623-86-0	50 – 70 %
Methacrylate copolymers		1 – 5 %
Alkoxyated long-chain alkyl amine		0.1 – 1 %

4. FIRST-AID MEASURES

If inhaled	Move to fresh air. Artificial respiration and/or oxygen may be necessary. Seek medical advice.
In case of skin contact	In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Wash clothing before reuse. Seek medical advice.
In case of eye contact	Remove contact lenses. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Obtain medical attention
If swallowed	Rinse mouth with water. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Seek medical advice.
Most important symptoms and effects, both acute and delayed	First aider needs to protect himself.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media

No information available.

Specific hazards during firefighting

Cool closed containers exposed to fire with water spray.

Hazardous combustion products

Carbon oxides (CO, CO₂), nitrogen oxides (NO_x), sulphur oxides (SO_x), phosphorus oxides (PO_x), hydrocarbons, smoke and irritating vapors as products of incomplete combustion.

Further information

Prevent fire extinguishing water from contaminating surface water or the ground water system.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	Use personal protective equipment Ensure adequate ventilation. Evacuate personnel to safe areas. Material can create slippery conditions.
Environmental precautions	Do not allow uncontrolled discharge of product into the environment.
Methods and materials for containment and cleaning up	Prevent further leakage or spillage if safe to do so. Remove all sources of ignition. Soak up with inert absorbent material. Non-sparking tools should be used. Ensure adequate ventilation. Contact the proper local authorities.

7. HANDLING AND STORAGE

Advice on Safe Handling

For personal protection see Section 8.
Smoking, eating and drinking should be prohibited in the application area.
Use only with adequate ventilation.
In case of insufficient ventilation, wear suitable respiratory equipment.
Avoid contact with skin, eyes and clothing.
Do not ingest.
Keep away from heat and sources of ignition.
Keep container closed when not in use.

Conditions for safe storage

Store in original container.
Containers which are opened must be carefully resealed and kept upright to prevent leakage.
Keep in a dry, cool and well-ventilated place.
Keep in properly labeled containers.
To maintain product quality, do not store in heat or direct sunlight.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Contains no substances with occupational exposure limit values.

Engineering measures:	No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Personal protective equipment	
Respiratory protection	Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Filter type:	Organic vapor filter.
Hand protection material:	Neoprene, nitrile, polyvinyl alcohol (PVA), Viton(R).
Remarks :	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Eye protection:	Wear a face-shield and protective suit for abnormal processing problems.
Skin and body protection:	Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.
Protective measures	Wash contaminated clothing before re-use. No special protective equipment required.
Hygiene measures	Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash face, hands and any exposed skin thoroughly after handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Viscous liquid	Odor	Mild petroleum like
Color	Red	Odor Threshold	No data available
pH	No data available		
Pour point	-54°C (-65°F)		
Boiling Point/Boiling Range	No data available		
Flash Point	206 °C (403°F)		Method: Cleveland Open Cup
Fire Point	230°C (446°F)		
Auto-Ignition Temperature	No data available		
Evaporation Rate	No data available		
Flammability	Low fire hazard. This material must be heated before ignition will occur.		
Upper Explosion Limit	No data available		
Lower Explosion Limit	No data available		
Vapor pressure	No data available		
Relative Vapor Density	No data available		
Density	0.8476 kg/l (15°C / 59°F)		
<u>Solubility(ies)</u>			
Water Solubility	Insoluble		
Partition Coefficient: n-octanol/ water	No data available		
<u>Viscosity</u>			
Kinematic Viscosity	29.8 cSt (40°C / 104°F) 6.0 cSt (100°C / 212°F)		
Explosive Properties	Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition.		

10. STABILITY AND REACTIVITY

Possibility of hazardous reactions	Hazardous polymerization does not occur. Stable under normal condition.
Conditions to avoid	No data available
Incompatible materials	Reactive with oxidizing agents, reducing agents and acids.
Hazardous decomposition products	May release COx, smoke and irritating vapors when heated to decomposition.

11. TOXICOLOGICAL INFORMATION

Eye contact
Ingestion
Inhalation
Skin contact

Acute toxicity

Product	
Acute oral toxicity	Remarks: No data available
Acute inhalation toxicity	Remarks: no data available
Acute dermal toxicity	Remarks: no data available
Components:	
Lubricating oils (petroleum), C15-30, hydrotreated neutral oil-based:	
Acute oral toxicity	LD50 (Rat): > 5,000 mg/kg
Acute inhalation toxicity	LC50 (Rat): > 5.2 mg/l Exposure time: 4 h Test atmosphere: dust/mist
Acute dermal toxicity	LD (Rabbit): > 2,000 mg/kg
Skin corrosion / irritation	
Product	
Remarks	No data available
Serious eye damage / eye irritation	
Product:	
Remarks:	No data available
Respiratory or skin sensitization	
Result	No data available
Germ cell mutagenicity	
Result:	No data available
Carcinogenicity	
Result:	No data available
Reproductive toxicity	
Result:	No data available
STOT – single exposure	
Result:	No data available
STOT – repeated exposure	
Result:	No data available

The components of this product are reported in the following inventories: _

On the inventory, or in compliance with the inventory.
 On the inventory, or in compliance with the inventory.
 All chemical substances in this product are either listed on the TSCA Inventory or are in compliance with a TSCA Inventory exemption.
 On the inventory, or in compliance with the inventory.
 On the inventory, or in compliance with the inventory.
 On the inventory, or in compliance with the inventory.
 On the inventory, or in compliance with the inventory.

16. OTHER INFORMATION

Further information

NFPA:

HMIS III:

HEALTH	1
FLAMMABILITY	1
PHYSICAL HAZARD	0
PERSONAL PROTECTION	B

0 = not significant, 1 = Slight
 2 = Moderate, 3 = High
 4 = Extreme, * = Chronic
