SAFETY DATA SHEET

% With Unknown Acute Toxicity : 38% of the ingredients listed in Section 3 have unknown acute toxicity.

SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients	CAS #	% (by weight)
Calcium aluminate cement	65997-16-2	30.00 - 60.00
Limestone	1317-65-3	30.00 - 60.00
Vinyl acetate copolymer	24937-78-8	10.00 - 30.00
Calcium sulfate	7778-18-9	10.00 - 30.00
Cellulose	9004-34-6	5.00 - 10.00
Portland cement	65997-15-1	5.00 - 10.00
Crystalline silica, quartz*	14808-60-7	0.10 - 1.00

*Note: Crystalline Silica (Quartz) is not intentionally added to this product, but is a naturally occurring component in limestone (Calcium Carbonate).

The exact percentages of the ingredients have been withheld by the manufacturer as trade secrets.

SECTION 4 – FIRST AID MEASURES						
General	: Call a Poison Center or doctor if you feel unwell.					
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing difficulties persist, seek immediate medical attention/advice.					
Skin contact	: Wash with plenty of soap and water. IF SKIN irritation or rash occurs: Get medical advice/attention.					
Eye contact	: Rinse cautiously with water for several minutes. Remove contact lenses, if presen and easy to do. Continue rinsing. Seek immediate medical attention/advice.					
Ingestion	: Never give anything by mouth to an unconscious person. Rinse mouth. Do NOT induce vomiting. Call a POISON CENTER or doctor/physician if you feel unwell.					
Notes for Physician	: Treat symptomatically.					
Signs and symptoms of sh	nort-term (acute) exposure					
Inhalation	: Symptoms may include coughing and shortness of breath.					
Skin	: Symptoms may include redness and itching. Contact with wet material, or moist areas of skin, causes skin burns. Skin thickening, cracking, or fissuring may occur					
Eyes	: Direct contact may strongly irritate or burn the eyes. Could cause blindness.					
Ingestion	: Symptoms such as gastric pain, nausea, vomiting, and diarrhea may occur.					
Effects of long-term (chroi	nic) exposure					
	 Prolonged inhalation may cause adverse lung effects with symptoms including coughing and shortness of breath. Repeated or prolonged inhalation of fine dusts may cause severe scarring of the lungs, a disease called silicosis, and alveolar proteinosis (lower lung disease). 					
Indication of need for imme	diate medical attention or special treatment					
	: Difficulty breathing persists after removing the person to fresh air.					
	Any exposure to the eye which causes irritation.					
	Ingestion.					
	SECTION 5 – FIRE FIGHTING MEASURES					

Unsuitable extinguishing media	:	Do not use water. Contact with water may cause hydration, and formation of caustic alkaline material.
Hazardous combustion products	:	Sulfur oxides; calcium oxide; vinyl acetate; acetic acid; Aldehydes; Carbon oxides.

Special fire-fighting procedures/equipment

:	Firefighters should wear proper protective equipment and self-contained breathing
	apparatus with full face piece operated in positive pressure mode. Move containers
	from fire area if safe to do so. Water spray may be useful in cooling equipment
	exposed to heat and flame. After fires have been extinguished, carefully clean all
	equipment and surfaces exposed to fumes.

Environmental precautions

Fire hazards/conditions of flammability

: The product is not flammable under normal conditions of use.

: Do not allow material to enter drains or contaminate ground water system.

Flammability classification (OSHA 29 CFR 1910.1200, WHMIS 2015)

: Not flammable

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal precautions	clea	rict access to area until completion of clean-up. All persons dealing with n-up should wear the appropriate chemically protective equipment.
Protective equipment	PER	er to Section 8 on this Safety Data Sheet, EXPOSURE CONTROLS / SONAL PROTECTION, for information on recommended personal protective pment.
Emergency Procedures	envi	spill/release in excess of the EPA reportable quantity is made into the ronment, immediately notify the national response center in the United States ne: 1-800-424-8002).
	US (CERCLA Reportable quantity (RQ): None reported.
Methods and materials for contain	ent ar	d cleaning up
	spill gath Sec	ilate area of release. Stop spill or leak at source if safely possible. Prevent ed material from entering sewer lines or waterways. Using brooms and shovels, er up spilled material and place in suitable container for later disposal (see ion 13). Clean up residual dust by mopping the area of the spill. Notify the opriate authorities as required.
Prohibited materials	Avoi	d strong oxidizing agents
Environmental precautions		ot allow product to enter drains or waterways. Do not allow material to aminate ground water system.
Reference to other sections	See	Section 14 for disposal information.

SECTION 7 – HANDLING AND STORAGE

Safe handling procedures	: Observe good hygiene standards. Use only with adequate ventilation. Do not eat, drink or smoke in the work area. Wash thoroughly after handling. Do not get in eyes, on skin, or on clothing. Avoid repeated or prolonged skin contact. Do not breathe dust from this product. Wear protective clothing to prevent skin contact. Promptly remove any clothing that becomes contaminated. Clean contaminated clothing before reuse. Keep container tightly closed.
Storage requirements	: Store in a cool, dry, well-ventilated area. Store away from heat and open flame. Avoid storing in direct sunlight. Store in original container. Keep tightly closed when not in use. Do not reuse empty container without commercial cleaning or reconditioning.
Incompatible materials	: See Section 10.
Special packaging materials	: Always keep in containers made of the same materials as the supply container.
Special instructions for use	: Airborne dust may contain crystalline silica, which is known to cause cancer by inhalation. Reduce airborne dust during mixing with exhaust ventilation. If exposure levels are in excess of any PEL, wear an appropriate particulate respirator (i.e. dust mask), rated N-95 or higher.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Permissible Exposure Limits

: No exposure limits have been established for the product itself. Below are exposure limits for the components in the product.

Ingredients	CAS #	ACGIH 1	ΓLV	OSHA PEL	
		TWA	STEL	PEL	STEL
Limestone	1317-65-3	TLV Withdrawn In 2007	N/Av	15 mg/m ³ (Total dust); 5 mg/m ³ (respirable)	N/Av
Portland Cement	65997-15-1	1 mg/m ³ (respirable, wir no asbestos a < 1% crystallir silica)	nd	15 mg/m ³ (Total dust); 5 mg/m ³ (respirable)	N/Av
Calcium aluminate cement	65997-16-2	1 mg/m ³ (as Aluminum metal and inso compounds	N/Av bluble	N/Av	N/Av
Calcium sulfate	7778-18-9	10 mg/m ³ (inhalable)	N/Av	15 mg/m ³ (Total dust); 5 mg/m ³ (respirable)	N/Av
Vinyl acetate copolymer	24937-78-8	10 mg/m ³ (Total dust); 3 mg/m ³ (respirable)	N/Av	15 mg/m ³ (Total dust); 5 mg/m ³ (respirable)	N/Av
Cellulose	9004-34-6	10 mg/m ³	N/Av	15 mg/m ³ (Total dust); 5 mg/m ³ (respirable fraction)	N/Av
Crystalline Silica, Quartz**	14808-60-7	0.025 mg/m ³ (respirable fraction)	N/Av	0.1 mg/m ³ (respirable) (final rule limit)	N/Av

Engineering Controls	:	Use general or local exhaust ventilation to maintain air concentrations below recommended exposure limits. Ventilation should effectively remove and prevent buildup of any vapor or mist generated from the handling of this product.
Personal Protection Equipment		
Eye / face protection	:	Chemical goggles must be worn when using this product. Additionally, a face shield is recommended if splashing is possible.
Skin protection	:	Wear chemical resistant protective clothing and impervious gloves. Glove materials such as nitrile rubber or Viton (fluorocarbon rubber) are recommended. Consult with the glove manufacturer for the breakthrough times of any chemicals listed on this Safety Data Sheet.
Body protection	:	Where extensive exposure to product is possible, use resistant coveralls, apron and boots to prevent contact.
Respiratory protection	:	If the work process generates excessive quantities of dust, or if exposure levels are in excess of any PEL, wear an appropriate particulate respirator (i.e. dust mask), rated N-95 or higher.
Site safety equipment	:	An eyewash station and safety shower should be made available in the immediate working area.
General hygiene considerations	:	Avoid contact with eyes, skin and clothing. Do not breathe vapors/dust. Do not eat, drink or smoke when using this product. Clean all equipment and clothing at end of each work shift.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical state	:	fine powder	Appearance	:	Gray powder
Odor	:	Cement odor	Odor threshold	:	N/Av
рН	:	12 – 13	Specific gravity	:	2.7 – 3.1
Boiling point	:	N/Av	Coefficient of water/oil distribution	:	N/Av
Melting/Freezing point	:	N/Av	Solubility in water	:	< 55 g/L
Vapor pressure (mm Hg @ 20°C / 68°F)	:	N/Av	Evaporation rate (n-Butyl acetate = 1)	:	N/Av
Vapor density (Air = 1)	:	N/Av	Volatiles (% by weight)	:	N/Av

Volatile organic compounds (VOCs)	:	0 g/L	General information	:	N/Av	
Particle size	:	N/Av	Flammability classification	:	Not flammable	
Flash point	:	Not applicable	Lower flammable limit (% by vol)	:	Not applicable	
Flash point method	:	Not applicable	Upper flammable limit (% by vol)	:	Not applicable	
Auto-ignition temperature	:	N/Av	Oxidizing properties	:	None	
Flame projection length	:	Not applicable	Flashback observed	:	Not applicable	
Explosion data: Sensitivity to mechanical impact / static discharge						

: Not expected to be sensitive to mechanical impact or static discharge.

SECTION 10 - REACTIVITY AND STABILITY INFORMATION

Reactivity	:	Reacts with water. Contact with water may cause hydration and formation of caustic calcium hydroxide.
Stability	:	Stable under the recommended storage and handling conditions prescribed.
Hazardous reactions	:	Hazardous polymerization does not occur. When reacted with water or when in contact with moist skin or eyes, this product becomes corrosive to skin and eyes.
Conditions to avoid	:	High temperatures.
Materials to avoid and incompatabili	ity	
	:	Oxidizing agents.
Hazardous decomposition produc	ts	

: None known, refer to hazardous combustion products in Section 5.

SECTION 11 – TOXICOLOGICAL INFORMATION

Routes of exposure	: Inhalation: YES	Skin Absorption: NO	Skin and Eyes: Yes Ingestion: YES								
Symptoms of exposure	: See Section 4.										
Calculated Acute Toxicity Estim	nates for the Product										
Inhalation	: N/Av	: N/Av									
Oral	: > 3000 mg/kg	: > 3000 mg/kg									
Dermal	: N/Av	: N/Av									
Toxicological data	: See below for individual ingredient acute toxicity data.										
	LC50 (4 hr)		LD50								
Ingredients	Inhalation, rat	Oral, rat	Dermal, rabbit								
Limestone	N/Av	6450 mg/kg	N/Av								
Portland cement	N/Av	N/Av	N/Av								
Calcium aluminate cement	N/Av	N/Av	N/Av								
Calcium sulfate	N/Av	> 3000 mg/k	ig NAv								
Vinyl acetate copolymer	N/Av	> 1000 mg/k	ig NAv								
Cellulose	> 5.8	> 5.8 > 2,000									
Crystalline Silica, Quartz	N/Av	N/Av N/Av N/Av									
Skin corrosion or irritation : In the presence of moisture, this product may be corrosive to skin. Serious eye damage / eye irritation : Causes serious eye damage.											
Respiratory or skin sensitizatio	piratory or skin sensitization : Portland cement may cause an allergic skin reaction in hypersensitive individuals, possibly due to trace amounts of chromium.										
Germ cell mutagenicity	: None known.	: None known.									
Carcinogenic status	classified as carcinoge	 This product contains Crystalline silica. Crystalline silica (respirable size) is classified as carcinogenic by inhalation by IARC (Group 1), ACGIH (Group A2), NTP (Group 1) and OSHA (OSHA Select carcinogen). 									
Reproductive toxicity	: None known.										
Specific Target Organ Toxicity, Single Exposure											

	: May cause respiratory irritation.
Specific Target Organ Toxicity, Repea	ated Exposure
	: Prolonged inhalation may cause adverse lung effects with symptoms including coughing, mucous production, and difficulty breathing. Repeated or prolonged inhalation if fine dusts may cause severe scarring of the lungs, a disease called silicosis, and alveolar proteinosis (lower lung disease).
Aspiration hazard	: None known.
Additional information	: N/Av

SECTION 12 – ECOLOGICAL INFORMATION

Environmental effects	: The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters.
Ecotoxicity	: No data available.
Biodegradability	: No data available.
Bioaccumulative potential	: No data available.
Mobility in soil	: No data available.
PBT and vPvB assessment	: No data available.
Other adverse effects	: No data available.
S	ECTION 13 – DISPOSAL CONSIDERATION
Handling for disposal	: Handle waste according to recommendations in Section 7.
Methods of disposal	: You must test your waste using methods described in 40 CFR Part 261 to determine if it meets applicable definitions of hazardous wastes. Dispose in

	accordance with all applicable federal, state, provincial and local regulations. Contact your local, state, provincial or federal environmental agency for specific rules.
Packaging	: Handle contaminated packaging in the same manner as the product.
RCRA	: If this product, as supplied, becomes a waste in the United States, it may meet the criteria of a hazardous waste as defined under RCRA, Title 40 CFR 261. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.

SECTION 14 – TRANSPORTATION INFORMATION

Regulatory Information	UN Number	Shipping Name	Class	Packing Group	Label
TDG	None	This product is not regulated according to Canadian TDG regulations.	None	None	None
TDG Additional Information	None				
49 CFR/DOT	None	This product is not regulated according to US DOT regulations.	None	None	None
49 CFR/DOT Additional Information	None				

IATA

: Not regulated for Air Transport

IMDG

: Not regulated for Ocean Transport

SECTION 15 – REGULATORY INFORMATION

Canadian Information:

HENRY[®] 549 FeatherFinish[™] Underlayment Patch and Skimcoat 02-Mar-2015

This product has been classified according to the hazard criteria of the Hazardous Products Regulations (HPR). This SDS contains all of the information required by the HPR.

Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on either the Domestic Substances List (DSL) or the Non- Domestic Substances List (NDSL).

US Federal Information:

TSCA: All listed ingredients appear on the Toxic Substances Control Act (TSCA) inventory.

CERCLA Reportable Quantity (RQ) (40 CFR 117.302): None reported.

SARA TITLE III: Sec. 311 and 312, SDS Requirements, 40 CFR 370 Hazard Classes: Immediate (Acute) health hazard; Chronic Health Hazard. Under SARA Sections 311 and 312, the EPA has established threshold quantities for the reporting of hazardous chemicals. The current thresholds are 500 pounds for the threshold planning quantity (TPQ), whichever is lower, for extremely hazardous substances and 10,000 pounds for all other hazardous chemicals.

SARA TITLE III: Sec. 313, Toxic Chemicals Notification, 40 CFR 372: This material is not subject to SARA notification requirements, since it does not contain any Toxic Chemical constituents above de minimus concentrations.

U.S. State Right To Know Laws

California Proposition 65: Warning! This product contains a chemical or chemicals known to the State of California to cause cancer and/or reproductive/developmental effects.

Component	CAS No.	CA	MA	MN	NJ	PA	RI
